

Sharing Screen on Zoom

If you are the host of a meeting, you can share your screen with the rest of the meeting attendees. You can share the meeting agenda, presentation, or your website screen. This feature is best used on a laptop or computer but is still available on mobile or tablet devices.

On a laptop or computer:

- The share screen option is indicated in green at the bottom of the screen.
- Click on the share screen option. You will be asked to select which screen on your computer you want to share.
- Select the screen you want to share and click the blue “Share” button in the bottom right of your screen.
- To stop sharing your screen, a red “Stop Share” button will be displayed at the top of your screen. You can click the red icon and your screen will stop sharing.

On a tablet or mobile device:

- The sharing option is indicated at the top of the screen green, saying “Share Content.”
- Select the “Share Content” option and you will see a list of things to share (screen, photos, website, etc.). You can select which option you want to share.
- Once you are done sharing your screen, you will want to click on the red “Stop Share” icon located at the top of your screen.

On a computer:

On a tablet:

On a smartphone or mobile device:
